| Clinker Sale                             | 1,269,550 | 589,660   |

Pakistan's macroeconomic indicators reflected relative stability in March 2025. The trade deficit narrowed by 7.4% year-on-year to \$2.119 billion, supported by a 1.95% increase in exports and a 2.45% decline in imports. However, for the nine-month period ended March 31, 2025, the trade deficit rose by 4.5% to \$17.9 billion, with exports and imports growing by 7.7% and 6.3%, respectively. On the inflation front, headline CPI reached a historic low of 0.7% in March bringing the average inflation for 9MFY25 down significantly

compared to the same period last year. In light of these developments, State Bank of Pakistan opted to maintain the policy rate at 12%, acknowledging the decline in food and energy prices but warning of potential volatility ahead. Looking forward, while the easing inflation and improving trade position offer cautious optimism, continued fiscal discipline and external stability will remain critical to sustaining economic progress.

As regards the cement industry, total sales volumes declined by 1.5% to 34 million tons during the nine-month period of FY2025, compared to the corresponding period last year. Local dispatches fell by a cumulative 1.94 million tons, driven by a 6% reduction in the North Zone (1.45 million tons) and a 9.6% decline in the South Zone (0.5 million tons). Conversely, exports recorded a strong recovery, rising by 1.43 million tons. Despite subdued domestic demand, overall industry utilization remained at 54%, reflecting only a marginal decrease from the same period last year. Domestic sales accounted for 43.3% of this utilization, while exports contributed 10.3%.

Kiln operational days of your Company decreased by 5% from 589 days to 561 days. Clinker production % increased to 74% (9M FY24: 72%), primarily due to sustained capacity utilization exceeding 100% at the HUB site during the last two quarters. Sales utilization also showed improvement and increased to 81% (9M FY24: 70%), which is in contrast to the industry trend mentioned above.

During the period under review, the Company's total sales value improved by 12.4%, driven by varying performance across domestic and export markets. In the local market, cement dispatches fell by 3.4%, though stable sales prices helped offset some of the volume loss. Conversely, the Company maintained a strategic focus on boosting clinker exports to cover fixed costs, resulting in an 93% increase in export volumes compared to the corresponding period. The decrease in financial expenses was mainly due to lower discount rates, better fund management, and substantial loan repayments enabled by the Company's improved cash flow position during the period.

The Board of Directors remains mindful of the considerable headwinds confronting the cement sector, most notably, the continued weakness in local demand which has dragged industry-wide capacity utilization to historical lows despite a sizable increase in export share. With domestic offtake down significantly from recent highs and limited public sector development spending, much of the industry's newly installed capacity lies idle. While relative pricing stability - despite a slight decline in the third quarter - and lower discount rates have supported financial performance and offset some of the impact from lower volumes, current demand dynamics are not sustainable over the long term. The need for a clear and actionable housing and infrastructure policy has thus become more pressing. Although recent signals from policymakers suggest a possible revival of low-cost housing initiatives, their tangible implementation remains to be seen. In the interim, the Company continues to prioritize operational efficiencies and has strategically scaled up its exports to help absorb fixed costs. The recent improvement in margins reflects this disciplined approach. Looking ahead, while cautious optimism is warranted, the Board emphasizes the need for a stable and supportive policy environment to unlock demand, improve utilization, and reinforce long-term growth momentum.

Principal activity of the Company is manufacture and sale of cement and clinker and following are the principal risks the Company face:

- Tight price market and tough competition
- Capacity utilization
- Interest rate
- Foreign currency fluctuations
- Shrinking cement exports market

The Board of Directors has approved Directors' Remuneration Policy. The main features of the policy are as follows:

- The Company shall not pay remuneration of its non-executive directors including independent directors except for meeting fee for attending Board and its Committee meetings.
- The Company will reimburse or incur expenses of travelling and accommodation of Directors in relation to attending of Board and its Committees meetings.
- The Directors' Remuneration Policy will be reviewed and approved by the Board of Directors from time to time.

### **Subsidiary Companies and Consolidated Financial Statements**

Nishat Packaging Limited (formerly Nishat Paper Products Company Limited) and Nishat Dairy (Private) Limited form portfolio of subsidiary companies of the Company. Therefore, the Company has annexed consolidated condensed interim financial statements in addition to its separate condensed interim financial statements, in accordance with the requirements of International Financial Reporting Standards.

It is pertinent to mention that Nishat Packaging Limited (formerly Nishat Paper Products Company Limited) commenced commercial operations of its polypropylene plant during the current quarter, which is expected to positively contribute to the Group's bottom line going forward.

# Notes to and Forming Part of the Unconsolidated Condensed Interim Financial Information - Unaudited

For the Nine-Month Period Ended March 31, 2025

#### 1. Status and nature of business

D. G. Khan Cement Company Limited (the 'Company') is a public company limited by shares incorporated in Pakistan in 1978 under the repealed Companies Act, 1913 (now the Companies Act, 2017). The Company's ordinary shares are listed on the Pakistan Stock Exchange Limited. The registered office of the Company is situated at Nishat House, 53-A, Lawrence Road, Lahore.

The Company is principally engaged in the production and sale of Clinker, Ordinary Portland Cement of different variations and Sulphate Resistant Cement. It has four cement plants, two plants located at Khofli Sattai, District Dera Ghazi Khan ('D.G. Khan'), one at Khairpur, Tehsil Kallar Kahar, District Chakwal ('Khairpur') and one at District Hub ('Hub').

### 2. Basis of preparation

### 2.1 Statement of compliance

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- i) International Accounting Standard ('IAS') 34, Interim Financial Reporting, issued by the International Accounting Standards Board ('IASB') as notified under the Companies Act, 2017; and
- ii) Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These unconsolidated condensed interim financial statements are un-audited and are being submitted to the members as required by section 237 of the Companies Act, 2017 (the 'Act').

These unconsolidated condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended June 30, 2024. Selected explanatory notes are included to explain events and transactions that are significant to and understanding of the changes in the Company's financial position and performance since the last annual financial statements.

The Company is required to issue condensed interim consolidated financial statements along with its condensed interim separate financial statements in accordance with the requirements of accounting and reporting standards as applicable in Pakistan. Condensed interim consolidated financial statements are prepared separately.

### 3. Material Accounting Policy Information

Effect on unconsolidated statement

The accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the unconsolidated annual audited financial statements for the year ended June 30, 2024 except for the estimation of income tax (see note 5) and adoption of new amended standards as set out in note 3.1 and 3.2.

# 3.1 Standards, amendments to published standards and interpretations that are effective in the current period

Certain standards, amendments and interpretations to International Financial Reporting Standards ('IFRS') are effective for accounting period beginning on July 1, 2024, but are considered not to be relevant or to have any significant effect on the Company's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these unconsolidated condensed interim financial statements except for the following:

### a) IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes

The Company has changed its accounting policy to recognise such taxes as 'Levies' which were previously being recognised as 'Income Tax' in line with "IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes" issued by the Institute of Chartered Accountants of Pakistan vide its circular No. 07/2024 dated May 15, 2024. This change has been accounted for retrospectively in line with the requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". There has been no effect on the unconsolidated statement of financial position, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and earnings / loss per share as a result of this change.

# 3.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Company's accounting periods beginning on or after July 01, 2025 but are considered not to be relevant or to have any significant effect on the Company's operations and are, therefore, not detailed in these unconsolidated condensed interim financial statements.

### 4. Accounting estimates

The preparation of unconsolidated condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these unconsolidated condensed interim financial statements, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the annual financial statements of the Company for the year ended June 30, 2024, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 5.

### 5. Taxation

Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

| (18,336,567) |
|              |

### 15. Financial risk management

#### 15.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and other price risk), credit risk and liquidity risk.

These unconsolidated condensed interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at June 30, 2024.

There have been no changes in the risk management department or in any risk management policies since the year ended June 30, 2024.

### 15.2 Fair value estimation

### a) Fair value hierarchy

The different levels for fair value estimation used by the Company have been defined as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.
- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Company classifies its financial instruments into the three levels prescribed above. The

following table presents the Company's financial assets measured and recognised at fair value at March 31, 2025 and June 30, 2024 on a recurring basis:

| Recurring fair value measurements | Level 1    | Level 2<br>(Rupees in | Level 3 thousand) | Total      |
|-----------------------------------|------------|-----------------------|-------------------|------------|
| As at March 31, 2025              |            |                       |                   |            |
| Assets<br>Investments - FVOCI     | 33,987,895 |                       | 5,966,746         | 39,954,641 |
| As at June 30, 2024               |            |                       |                   |            |
| Assets Investments - FVOCI        | 26,878,122 |                       | 5,673,708         | 32,551,830 |

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between Levels 1, 2 and 3 during the period. There were no changes in valuation techniques during the period.

The Company did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at March 31, 2025.

### b) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments; and
- for other financial instruments discounted cash flow analysis.

### c) Fair value measurements using significant unobservable inputs

### **Investment in Nishat Hotels and Properties Limited**

The main level 3 inputs used by the Company to determine fair value of investment in Nishat Hotels and Properties Limited ('NHPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to NHPL.
- Long term growth rate is estimated based on historical performance of NHPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique are as follows:

( 2025 DGKC 3rd QUARTER =

- Discount rate of 16.36% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs is linked to inflation with a range of 6.50% to 9.50% per annum.

### Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 252.083 million lower.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 93.750 million lower.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 20.833 million higher.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 7.292 million lower.

### **Investment in Hyundai Nishat Motor (Private) Limited**

The main level 3 inputs used by the Company to determine fair value of investment in Hyundai Nishat Motor (Private) Limited ('HNMPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a post-tax rate that reflects current market assessments of the time value of money and the risk specific to HNMPL.
- Long term growth rate is estimated based on historical performance of HNMPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique are as follows:

- Discount rate of 17.59% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs are linked to inflation and currency devaluation both of 4% per annum respectively, and revenue are also linked to currency devaluation at 4% per annum.

### Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 193.482 million lower.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 93.718 million lower.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 47.426 million higher.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 17.130 million lower.

#### 16. Date of authorization for issue

These unconsolidated condensed interim financial statements were authorised for issue on April 28, 2025 by the Board of Directors of the Company.

### 17. Corresponding figures

In order to comply with the requirements of International Accounting Standard 34 - 'Interim Financial Reporting', the unconsolidated condensed interim financial position has been compared with the balances of annual audited financial statements of preceding financial year, whereas, the condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of cash flows have been compared with the balances of comparable period of immediately preceding financial year.

Corresponding figures have been re-arranged and reclassified, wherever necessary, for the purposes of comparison and better presentation as per reporting framework. However, no significant rearrangements have been made except as disclosed in note 3.1(a) to the unconsolidated condensed interim financial statements.

## Notes to and Forming Part of the Condensed Interim Consolidated Financial Information - Unaudited

For the Nine-Month Period Ended March 31, 2025

#### 1. Legal Status and nature of business

The group comprises of:

- D. G. Khan Cement Company Limited (the parent company);
- Nishat Packaging Limited (formerly Nishat Paper Products Company Limited);
- Nishat Dairy (Private) Limited; and

The parent company is a public limited company incorporated in Pakistan and is listed on Pakistan Stock Exchange. The registered office of the Company is situated at Nishat House, 53-A Lawrence Road, Lahore. The Company is principally engaged in the production and sale of Clinker, Ordinary Portland Cement of different variations and Sulphate Resistant Cement. It has four cement plants, two plants located at Khofli Sattai, District Dera Ghazi Khan ('D.G. Khan'), one at Khairpur, Tehsil Kallar Kahar, District Chakwal ('Khairpur') and one at District Hub ('Hub').

Nishat Packaging Limited (formerly Nishat Paper Products Company Limited) is a public limited company incorporated in Pakistan under the Companies Ordinance, 1984 on July 23, 2004. It is principally engaged in the manufacture and sale of paper products and packaging material.

Nishat Dairy (Private) Limited was incorporated in Pakistan under the Companies Ordinance 1984 on October 28, 2011. The principal activity of the company is to carry on the business of production of raw milk.

The registered office of the Group is situated at 53-A, Lawrence Road, Lahore. The parent company's holding in its subsidiaries is as follows:

#### Effective percentage of holding

- Nishat Packaging Limited (formerly Nishat Paper Products Company Limited) 55%
- Nishat Dairy (Private) Limited 55.10%

#### 2. Basis of preparation

#### 2.1 Statement of compliance

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These consolidated condensed interim financial statements are un-audited and are being submitted to the members as required by section 237 of the Companies Act, 2017 (the 'Act').

These consolidated condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended June 30, 2024. Selected explanatory notes are included to explain events and transactions that are significant to and understanding of the changes in the Group's financial position and performance since the last annual financial statements.

#### 3. Material Accounting Policy Information

- 3.1 The accounting policies and the methods of computation adopted in the preparation of these consolidated condensed interim financial statements are the same as those applied in the preparation of preceding annual published financial statements of the Group for the year ended June 30, 2024 except for adoption of new and amended standards as set out in note 3.2 and 3.3.
- 3.2 Standards, amendments and interpretations to International Financial Reporting Standards (IFRS) that are effective in the current period

Certain standards, amendments and interpretations to International Financial Reporting Standards (IFRS) are effective for accounting periods beginning on July 1, 2024, but are considered not to be relevant or to have any significant effect on the Group's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these consolidated condensed interim financial statements except for the following:

#### a) IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes

The Group has changed its accounting policy to recognise such taxes as 'Levies' which were previously being recognised as 'Income Tax' in line with "IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes" issued by the Institute of Chartered Accountants of Pakistan vide its circular No. 07/2024 dated May 15, 2024. This change has been accounted for retrospectively in line with the requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". There has been no effect on the consolidated statement of financial position, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and earnings / loss per share as a result of this change.

| Effect on consolidated statement | Had there  | Impact of  | After         |

### 3.3 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Group's accounting periods beginning on or after July 01, 2025 but are considered not to be relevant or to have any significant effect on the Group's operations and are, therefore, not detailed in these consolidated condensed interim financial statements.

#### 4. Accounting estimates

The preparation of these consolidated condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these consolidated condensed interim financial statements, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the annual financial statements of the Group for the year ended June 30, 2024, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 4.1.

#### 4.1 Taxation

Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

#### 6. Deferred income - Government grant

This represents deferred grant recognized in respect of the benefit of below-market interest rate on the facilities availed under State Bank of Pakistan's (SBP) Refinance Scheme for Payment of Wages and Salaries to the Workers and Employees of Business Concerns ('Refinance Scheme'). The benefit has been measured as the difference between the fair value of the loan and the proceeds received. The Group used the prevailing market rate of mark-up at the date of disbursement for similar instruments to calculate fair values of respective loans.

#### 7. Contingencies and commitments

#### 7.1 Contingencies

There is no significant change in contingencies from the preceding annual consolidated financial statements of the Group for the year ended June 30, 2024 other than those mentioned below. The banks have issued the following guarantees on Group's behalf in favor of:

- (i) Directorate General of Mines and Minerals, Punjab against enhanced royalty rates on minerals amounting to Rs. 1,405.65 million (June 2024: Rs 172.08 million).
- (ii) The Director Excise and Taxation, Karachi on account of infrastructure development cess amounting to Rs. 253.72 million (June 2024: Rs 197.42 million).
- (iii) Letter of guarantee of Rs 34 million (June 2024: Rs 30 million) in favour of Director, Excise and Taxation, Karachi under direction of Sindh High Court in respect of suit filed for levy of infrastructure cess:
- (iv) Sindh High Court against levy of Sales Tax, custom duty and excise amounting to Rs 176.86 million (June 2024: Rs 228.17 million).
- (v) K-Electric against security deposits for electricity bills amounting to Rs 193.71 million (June 2024: Rs 142.40 million).
- 7.1.1 The Group has provided a guarantee to Meezan Bank Limited (MBL) against the loan provided by MBL to Hyundai Nishat Motor (Private) Limited, a related party, amounting to Rs. 1,060.19 million (June 2024: Rs. 1,149.3 million).

#### 7.2 Commitments in respect of:

- (i) Contracts for capital expenditure Rs 189.57 million (June 30, 2024: Rs 107.61 million).
- (ii) Letters of credit for capital expenditure Nil (June 30, 2024: Rs 48.05 million).
- (iii) Letters of credit other than capital expenditure Rs 397.66 million (June 30, 2024: 1,573.27 million).

#### Total cash and cash equivalents 12. Financial risk management

Cash and bank balances

11. Cash and cash equivalents

#### 12.1 Financial risk factors

Net working capital changes

Short term borrowings - secured

- Increase/(decrease) in trade and other payables

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and other price risk), credit risk and liquidity risk.

The consolidated condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the group's annual financial statements as at June 30, 2024.

There have been no changes in the risk management department or in any risk management policies since the year ended June 30, 2024.

#### 12.2 Fair value estimation

#### a) Fair value hierarchy

The different levels for fair value estimation used by the Group have been defined as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.
- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels prescribed above. The following table presents the Group's financial assets measured and recognised at fair value at March 31, 2025 on a recurring basis:

| Recurring fair value measurements | Level 1    | Level 2 (Rupees in | Level 3 thousand) | Total      |
|-----------------------------------|------------|--------------------|-------------------|------------|
| As at March 31, 2025              |            |                    |                   |            |
| Assets                            |            |                    |                   |            |
| Investments - FVOCI               | 35,281,846 | -                  | 5,966,746         | 41,248,592 |
| Investments - FVPL                | 33         | -                  | -                 | 33         |
| Biological assets                 |            |                    | 1,215,816         | 1,215,816  |
| As at June 30, 2024               |            |                    |                   |            |
| Assets                            |            |                    |                   |            |
| Investments - FVOCI               | 27,924,771 | -                  | 5,673,708         | 33,598,479 |
| Investments - FVPL                | 26         | -                  | -                 | 26         |
| Biological assets                 |            |                    | 1,167,436         | 1,167,436  |

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between Level 1, 2 and 3 during the period. There were no changes in valuation techniques during the period.

The Group did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at March 31, 2025.

#### b) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments; and
- for other financial instruments discounted cash flow analysis.

#### c) Fair value measurements using significant unobservable inputs

The main level 3 inputs used by the Company to determine fair value of investment in Nishat Hotels and Properties Limited ('NHPL') and Hyundai Nishat Motor (Private) Limited ('HNMPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a post-tax rate that reflects current market assessments of the time value of money and the risk specific to NHPL and HNMPL.
- Long term growth rate is estimated based on historical performance of NHPL and HNMPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique for NHPL are as follows:

- Discount rate of 16.36% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs is linked to inflation with a range of 6.50% to 9.50% per annum.

The significant assumptions used in this valuation technique for HNMPL are as follows:

- Discount rate of 17.59% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs are linked to inflation and currency devaluation both of 4% per annum respectively, and revenue are also linked to currency devaluation at 4% per annum.

#### Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 252.083 million and Rs 193.482 million lower for NHPL and HNMPL respectively.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 93.750 million and Rs 93.718 million lower for NHPL and HNMPL respectively.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 20.833 million and Rs 47.426 million higher for NHPL and HNMPL respectively.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at March 31, 2025 would be Rs 7.292 million and Rs 17.130 million lower for NHPL and HNMPL respectively.

#### 13. Operating segments

Segment information is presented in respect of the group's business. The primary format, business segment, is based on the group's management reporting structure.

The group's operations comprise of the following main business segment types:

#### Type of segments Nature of business

Cement Production and sale of clinker, Ordinary Portland and Sulphate Resistant Cements.

Paper Manufacture and supply of paper products and packing material.

Dairy Production and sale of raw milk.

#### 13.1 Segment analysis and reconciliation - condensed

The information by operating segment is based on internal reporting to the Group executive committee, identified as the 'Chief Operating Decision Maker' as defined by IFRS 8. This information is prepared under the IFRS's applicable to the consolidated financial statements. All group financial data are assigned to the operating segments.

## 13.2 Geographical segments

All segments of the group are managed on nation-wide basis and operate manufacturing facilities and sales offices in Pakistan only.

#### 14. Date of authorization

These consolidated condensed interim financial statements were authorized for issue by the Board of Directors of the Holding Company on April 28, 2025.

#### 15. Corresponding figures

In order to comply with the requirements of the International Accounting Standard 34: 'Interim Financial Reporting', the condensed interim consolidated balance sheet and condensed interim consolidated statement of changes in equity have been compared with the balances of annual audited financial statements of preceding year, whereas, the condensed interim consolidated profit and loss account, condensed interim consolidated statement of comprehensive income and condensed interim consolidated cash flow statement have been compared with the balances of comparable period of immediately preceding year.

Corresponding figures have been re-arranged and reclassified, wherever necessary, for the purposes of comparison and better presentation as per reporting framework. However, no significant rearrangements have been made except as disclosed in note 3.2(a) to the consolidated condensed interim financial statements.
